

EXHIBIT F

EXHIBIT F
Applications of U.S. Patent No. 11,794,983 to the TemperPack ClimaCell

	Claim Term	TemperPack ClimaCell
17pre	A thermal insulation article for placement in a shipping container to hold an item, comprising:	<p>TemperPack and its customers and end-users directly infringe this claim under 35 U.S.C. § 271(a), literally and/or under the doctrine of equivalents, by making, using, selling, offering for sale, and/or importing ClimaCell into the United States.</p> <p>TemperPack indirectly infringes this claim under U.S.C. § 271(b), by making, using, offering for sale, and selling ClimaCell in the United States without authority. TemperPack induces its customers and/or end-users to infringe this claim at least by encouraging, instructing, and aiding one or more persons in the United States, including but not limited to TemperPack's customers and end-users to make and use ClimaCell in a manner that infringes this claim. TemperPack knew or should have known that its actions would induce infringement of this claim.</p> <p>TemperPack also indirectly infringes this claim under U.S.C. § 271(c), by selling, offering for sale, and/or importing ClimaCell into the United States, with the knowledge that ClimaCell is a material component especially made or adapted for use in a shipping container in a manner that would infringe this claim. ClimaCell is not a staple article of commerce capable of substantial noninfringing use.</p> <p>To the extent the preamble is construed to be limiting, TemperPack, its customers, and/or its end-users place ClimaCell into a thermal insulation article for placement in a shipping container to hold an item.</p>

		<div data-bbox="741 232 1780 873">  <p>The advertisement features the TemperPack logo at the top. Below it, an eye icon is followed by the heading "MAKE A GREAT IMPRESSION." The text explains that for e-commerce businesses, opening the box is a critical moment of truth. It contrasts sloppy or plastic insulation with the "turn-off" of ClimaCell liners, which reveal crisp Kraft paper. To the right, a 3D illustration shows a cardboard box with its flaps open, revealing the ClimaCell liner. Below this, a hand icon holding a globe is followed by the heading "HIT CSR AND WASTE REDUCTION GOALS." The text states that switching from plastic foam to ClimaCell liners reduces Scope 3 CO2e emissions and diverts plastic waste from landfills.</p> </div> <p data-bbox="1010 878 1514 911">https://www.temperpack.com/climacell</p> <p data-bbox="632 951 1871 1016">The paper film surrounds the plurality of panel sections to prevent water from reaching the panel sections.</p>

	Claim Term	TemperPack ClimaCell
		 <p>A Deeper Look</p> <p>ClimaCell is a proprietary insulating material developed and manufactured by TemperPack. Much like EPS, it can be customized for different payload sizes, temperature ranges, and transit times. Unlike EPS, it is certified curbside recyclable.</p> <p>ClimaCell is composed of three parts: an outer barrier, an inner barrier, and a web of pocketed cells. The outer barrier of ClimaCell is a coated Kraft paper that resists moisture while the inner barrier is a heat activated paper that holds the pocketed cells in place.</p> <p>The patented technology in ClimaCell exists in its unique pocketed cells. These cells are a proprietary formula specifically optimized to control temperature in your shipment while resisting water solubility.</p> <p>The entire product is certified curbside recyclable so consumers can dispose of it alongside other corrugated products.</p> <p>https://www.wcpsolutions.com/news/climacell-temperature-controlled-packaging/</p>
